Málaga, Spain

Dear Erste Digital Recruitment Team,

My name is Miguel, and I am writing this letter to express my interest in the web developer internship position at Erste Digital. I am a young Spanish individual seeking an opportunity to further my education through professional internships in a country that has always deeply attracted me, such as Austria. I am confident that I am the ideal candidate for this position, as I fit perfectly with all the requirements outlined in your description. I have a good command of the mentioned technologies, and I am someone with great motivation and a constant hunger for learning and professional growth.

Currently, I am in charge of a Public Library in Málaga, Spain. Although I come from the Humanities and Information Sciences sector, my curiosity and restless nature led me to update my training and reinvent myself professionally. My inclination towards software development stems from considering it a stimulating field, akin to a puzzle where each solution unveils a new challenge, fueling my constant desire to improve and surpass myself.

My current goal is to find a professional internship where I can challenge myself by applying all my knowledge in a real work environment. As a beneficiary of an Erasmus+ scholarship, this would allow me to complete the Degree in Web Apps Development that I am pursuing in a foreign country, which I would like to be Austria.

I am thrilled at the opportunity to contribute to Erste Group's innovative projects and refine my skills as a software developer through an internship at such a renowned company. Moreover, my attraction to the banking and finance sector will bolster my long-term motivation and commitment to the position.

Bests regards,

Miguel
